Wholesale Price List

S. F. LEONARD

SEED FARMER
AND MERCHANT

153 AND 155
WEST RANDOLPH ST.

CHICAGO

SPECIAL NOTICE

OUR seed crops the past season have been unusually large, consequently we are able to make closer prices than common. The prices we have made are as low as seeds of good quality should be sold for.

Our reputation has been built up by furnishing seeds of the best quality as to purity and germination, and we shall always endeavor to furnish the best seeds that can be procured, and make prices as reasonable as possible.

We are in a position to furnish good seeds at as low figures as any reliable house, but we cannot be expected to compete in price with bankrupt stocks and seeds of questionable character. There are several large lots of such seeds being offered this season, and there never was a time when seed dealers should be more careful in regard to the quality of the seed they purchase, and the reputation of the house from whom they purchase it.

Not bound by these prices for any definite time or quantity, and subject to advance without notice.

Prices quoted are f. o. b. Chicago. Bags, boxes and barrels, to insure safe transportation, are charged for at cost. Proportionately higher prices will be charged for quantities less than $\frac{1}{4}$ pound or $\frac{1}{4}$ bushel.

Terms, June 1, 1897, without regard to date of purchase, or a discount of one per cent per month for unexpired time when paid before maturity.

Grass seeds, potatoes, field seeds, onion sets and sunflower, net cash, without any time or discount whatever.

Our telegraph code is the one adopted by the American Seed Trade Association.

SIMEON F. LEONARD.

CABBAGE.

Cabbage seed is one of our leading specialties. Chicago is and has been one of the most important growing and shipping centers for cabbages. Many car loads are shipped to all points of the country from Chicago every year. We are headquarters for such noted varieties as Holland, Luxembourg, Blue Fottlers and Faultless, and the excellent reputation of Leonard's strains of cabbage seeds is known wherever cabbages are raised.
